

“Programming Humanity”

Katherine Elkins (Kenyon College)

**Keynote Speaker, Comparative Studies Undergraduate
Research Colloquium**

3:30-5pm, Friday April 5, 2019

**Research Commons, 18th Avenue Library, 3rd Floor
175 W. 18th Avenue**

How can the Humanities leverage new computational approaches like Artificial Intelligence while remaining human-centered? Katherine Elkins discusses possibilities by drawing on her recent experience developing Digital Humanities at Kenyon College. Kenyon DH focuses on the ethical and social dimensions of technology as well as its practical application for new areas of research.

Katherine Elkins is the NEH Distinguished Teaching Associate Professor of Humanities and Comparative World Literature at Kenyon College.

Sponsored by the Comparative Studies Undergraduate Student Group.
